Message from the Chairperson International Medicare Limited

Health care workers are undoubtedly the backbone of a country, as they fiercely accept the dangers of unknown diseases and work towards saving lives of hundreds! Welcome to International Nursing College (INC), one of the pioneers in providing world-class nursing, midwifery and other allied health professional education in the diploma, graduate, and post-graduate levels in Bangladesh. INC was established in 2007 by International Medicare Limited (IML). Along with my fellow Board of Directors (BoD) of IML, we are always seeking the best possible ways to run the organization for serving the nation and mankind.

I am truly honored to serve as the Chairperson of the IML Board of Directors. I take the challenge to lead the IML Board of Directors during a remarkable time of the organization with boundless enthusiasm and optimism. We are tackling the challenges of running the organization in this pandemic situation with a fearless attitude. It is still facing newer and newer challenges day by day. I strongly believe that everything is possible as we strive to serve our students, our patients, our global community, and Bangladesh with mutual understanding, transparency, cooperation, and ongoing dialogue.

The job of a nurse is especially incredibly tough during this era of pandemics. Their otherworldly dedication calls for such respect and appreciation throughout the community. It is time we acknowledge the heroes of our community and extend our note of gratitude to them through thank you messages for nurses, midwives paramedics and technologists. Thank you for being a true fighter! The world is happier and healthier because of you! I believe IML and its supported organizations like IMC, IMCH, INC, IHT, etc. are different from other healthcare organizations in numerous ways. We established the institutes with the vision of a healthcare platform that has the spirit of inclusiveness contributing to national and international development. They reflect our vision to become a 'Centre of Excellence' producing leading healthcare professionals in medical technology and nursing services, and as a whole, scientific innovation and state-of-the-art management.

Behind the establishment of all IML supported organizations, including INC, one of the main goals of founders and management was to build an academic environment for healthcare that can compete with any top-ranked educational institution in the world. And we believe that this goal can be achieved by applying theoretical knowledge into practical field that embraces the concept of 'career-focused integrated learning', the idea of equipping students with the required knowledge for solving real-life problems.

Students need to have a learning experience that is motivating, dynamic, and worthwhile for their lifelong achievement. They will become competent and dedicated professionals and truly global citizens as well. Our institutions are here to support their academic, professional, social, and personal growth. So beginning the next step of their life journey from our campus will be their lifetime best decision undoubtedly.

I am inviting you to experience the excellent educational environment that we have been creating for so long. Please visit our website to learn more about us, and do join us for your dream future.

Best Regards

Ahmed Al Kabir, Ph.D
Chairperson
Board of Directors
International Medicare Limited (IML)

**Message from the managing Director
International Medicare Limited
&
Chairman of Governing body
International Medical College**

I welcome the admission-seeking candidates into International Nursing College (INC). I congratulate them for choosing nursing educational courses at INC. Definitely, it is a timely decision. And I can assure them all-out cooperation to complete the course to become highly qualified professional Nurse.

International Nursing College (INC), established by International Medicare Ltd. (IML) in 2007, is one of the pioneers in providing world-class Nursing Education at all levels in our country. Its vision is to cater to the country's need for providing world-acclaimed nurses. As part of our commitment to the Nursing Education sector, we have started the post-graduate M.Sc in Nursing program at INC under Bangabandhu Sheikh Mujib Medical University (BSMMU) this year. This has opened enormous opportunities for graduate Nurses to enlighten their prospects.

In today's world, there is a severe shortage of skilled nurses both at home and abroad, we at INC fully committed to fill-up this vacuum by producing highly qualified nurses of benchmark quality. At the time of establishing this nursing college, our motivation was to produce highly skilled nursing professionals to cater to the needs of the health sector of the country. For achieving this, we know that we should not compromise with the quality of nursing education. Because we believe that without proper nursing education, we will not be able to produce skilled and efficient health professionals in Bangladesh. So we aim at providing a sound nursing education that will undoubtedly facilitate a solid foundation of the healthcare system in our country.

We are constantly working on the development of infrastructure and facilities of the college relentlessly. We provide the students with a resourceful library and modern laboratory facilities, spacious classrooms, sports ground, gymnasium, and so on. Most importantly, we have a team of highly qualified and dedicated faculty members from all over the country.

Our aim remains to turn INC into a Center of Excellence in the field of Nursing science with the help of foreign collaboration. The Memorandum of Understanding with Kean University (KU), a state-owned university of New Jersey, USA, is evidence of that. English as a Second Language Certificate Program (ESL Course) is conducted under this MOU. By this, a golden opportunity has been opened for our nurses as now they can get themselves prepared for English. As enhancing English language proficiency is a must for all professionals to survive in this global job market, this ESL course helps our students prepare for the job market.

It is my expectation that within our ever-increasing immense facilities for pursuing international standard education, our students will be able to prepare themselves as competent and dedicated nurses, which ultimately shall ensure good jobs with smart salaries at home and abroad.

Thank you very much,

M A Mubin Khan
Managing Director
International Medicare Limited

Message from the Principal International Medical College

I am extremely delighted to welcome the prospective students and their parents to International Nursing College. This nursing college started its journey in 2007, affiliated with the University of Dhaka, the Oxford of the East. This nursing college is situated in a serene natural environment at Sataish, Tongi, Gazipur district, nearby the capital city, Dhaka.

This college started its operation as the Nursing Unit of International Medical College (IMC), another organization of IML. It has been conducting Basic B.Sc in Nursing, after starting in the session 2007-2008, since its establishment. The unit introduced Post Basic B.Sc Nursing in 2014. It has grown as a full-fledged center for quality nursing education and training. Consequently, the government recognized it as 'International Nursing College'. This college has recently got approval for three more courses: M. Sc in Nursing, B.Sc in Nursing Science, Diploma in Nursing Science and Diploma in Nursing & Midwifery. Nursing is an international profession. There are a lot of scopes to work for people in this field. A qualified nurse can earn a lot of money and lead a quality life with family and loved ones. Comparing to other technical or non-technical graduates, nursing graduates have more opportunities to get lucrative jobs at home and abroad with handsome salaries and attractive benefits. So, the brilliant freshers from our new generation can choose B.Sc in Nursing as the next step of their academic journey that will lead them to their dream career. In this college, the students' intellect is nurtured thoroughly, and the academic programs are well-organized. The faculty members here guide the academic activities with diligence and sincerity. They are available always to assist, support, counsel, and solve students' academic and other related problems. Students are also encouraged to participate in extracurricular activities such as sports, social and cultural events. Sincere efforts are made to attract the students to their places of learning, and modern teaching methods are extensively used by the teachers for imparting lessons. Our students will be able to fulfill their desire by the sincere efforts and the excellent input from the faculties of this college. All these supports definitely help our students to be true nurses, and they can contribute to serving humanity worldwide.

International Nursing College has been facilitated with all the state-of-the-art logistics of International Medical College Hospital, the teaching hospital of this college. They are like advanced medical treatment-oriented machinery, equipment, tools, study materials, and human resources. So the students will be future nurses with advanced skills and technical knowledge.

Our Honorable Managing Director, M. A. Mubin Khan, is a great promoter of healthcare education, training, and services. He has taken numerous initiatives to develop INC by adding its newer and newer infrastructure and facilities. A new separate building for INC is going to be built, and the construction work of it is in full swing. He is trying relentlessly to introduce more and more nursing courses in INC.

I am grateful to the founder of this nursing college, Major General M. Abdur Rab, psc, who is a legendary charitable man, an honest and successful businessman. I would also like to thank all members of the Governing Body. I would like to congratulate Prof. Dr. Mohd. Anisur Rahman Forazy for leading the college as Principal with his relentless effort and vigorous endeavor. One more time, I welcome the new students who are willing to join in Nursing and go for serving humanity. Build the foundation of your career in International Nursing College; our dedicated and sincere team is always with you to make your dream into reality..

Professor Dr. Mizanur Rahman
Principal
International Medical College

It is my great pleasure to join as Principal at International Nursing College, Gushulia, Sataish, Tongi, Gazipur.

As a registered nurse, I feel and own that nursing is a noble profession, which serves humanity.

I have owned the nursing profession as a part of my life. During my graduation in nursing, I took a lot of opportunities to serve my people from my heart with empathy. My sincerity proved me as a harbinger of nursing in Bangladesh. The increasing demand of the nurses encourages me to move with a strong and enthusiastic attitude. There are marvelous prospects of nursing in Bangladesh. So, I welcome our brilliant freshers to join in nursing. Nursing is the only profession where there are a lot of scopes to work for humanity and the field of international hospitals. Nurses have access to the global arena, which leads a qualified nurse to earn a lot of money and leads a better quality life with family and relatives too. Nurses are the potential workforces of the healthcare team. So, the brilliant freshers from our new generation can choose nursing as a challenging career. I believe, rather than other technical or non-technical graduates, nursing graduates have more opportunities to get jobs at home and abroad with handsome salaries and various benefits. In developed countries, a nurse can earn Tk. 5 lac – 7 lac per month.

International Nursing College (INC) has the best facilities for the students or apprentices to build as competent nurses. INC conducts various courses. It has been offering B. Sc. in Nursing since 2007 and Post Basic B.Sc. in Nursing since 2014. We are pleased to announce that International Nursing College has got permission from the MOHFW to run three more courses and these are – **a)** M.Sc in Nursing, **b)** Diploma in Nursing Science and Midwifery,

Message from the Principal International Nursing College

c) Diploma in Midwifery from the session of 2020-2021. Our all courses provide students the opportunity to extend themselves intellectually and clinically. We are always ready to take care of them. We are serving quality education and other necessary services.

Our Honorable Managing Director, Mr. M. A. Mubin Khan, is a great philanthropist. He is also very gracious and grateful with honor, dignity as a renowned educationist and man with a kind heart. He has extended his helping hands towards the nursing sector. Under his dynamic leadership, the college is going to develop its newer and newer infrastructure and facilities. A new separate building for INC is going to be built, and the construction work of it is in full swing. He is extremely trying to introduce more and more nursing courses. He believes that INC will play a pivotal role in organizing policy-level events like regional and international seminars and conferences and alike.

Our respected Principal of International Medical College, Prof. Dr. Mizanur Rahman, has expressed his great honor and gratitude towards nursing. He is always keeping in touch to develop International Nursing College as an excellent center for nursing education.

I always keep my hearty honor to our respected founder, co-founder, and Board of Directors. My sincere gratitude is to all members of the Governing Body.

I welcome the new students who are willing to join in Nursing and go for serving humanity. Build the foundation of your career with our dedicated and sincere team.

The Benefits of Studying Nursing

Nursing as a Profession

Nursing is a multidimensional profession that reflects the needs and values of society, and strives to meet the health needs of individuals and communities. Nursing is a caring art that involves the feelings, needs, and experiences of people under stress.

A Rewarding Career

If you decide to become a nurse, you will get the opportunity to learn all the art of caring. When you have entered the course, you assign to provide support and assist people experiencing life crises. You will be there, when babies are born and when old people die; you will be there, when an old man is too weak to feed himself, as a nurse you assist him to feed; you will be there when a small boy cannot walk to look out of the window; you provide another way for him to move; or when a woman feels useless and unloved, as a nurse finds ways to fit her self-esteem. You will comfort and reassure as you immunize a child, you will teach, you will examine and you will aid. You will always be needed whenever human beings are ill or injured. You will stay beside them with love and care during the experience whether they recover or die. There is nothing more rewarding than patients' smiles, giving thanks, and telling you how much you have done.

Opportunities in Government Job

B.Sc in Nursing is a graduate degree under the University of Dhaka which paves the way to sit for BCS (Bangladesh Civil Service Commission) examination. It helps to improve the standard of nursing service and brings it to the international level.

International Opportunities

It gives an opportunity for the nursing workforce to seek employment outside the country. There is a huge demand for qualified registered nurses (RN) in developed countries; only in the USA estimated 700000 nurses will be needed by the year 2025. Our nurses may avail these opportunities. It offers an assured opportunity for a decent and dignified living.

If you choose Nursing as your career, you will discover a life filled with personal and professional rewards and satisfaction.

International Nursing College - at a Glance

a) Introduction

International Nursing College (INC) is one of the pioneers among private nursing colleges in Bangladesh. It conducts high-quality academic programs to produce nurses as per international standards. It intends to kindle the light of learning in its students that matches with the need of the healthcare employment market both in-home and abroad. The total set-up of International Nursing College has been organized in a well-planned way so that the students can acquire all necessary skills which are essential for their profession.

This college started with the B.Sc in Nursing course in 2007. Later on, it introduced Post Basic B.Sc Nursing in 2014. The college has recently got approval for three more courses: M.Sc in Nursing, Diploma in Nursing Science and Midwifery, and Diploma in Midwifery.

b) Vision

International Nursing College will be a high standard education center that educates and prepares knowledgeable, competent, confident, and committed nurses to provide quality care to the people.

c) Philosophy

The nursing profession is a noble profession utilizing a body of knowledge and art to apply scientific principles in providing standard and quality nursing care for people. We are committed to providing quality nursing education for the new nursing generation.

d) Mission

International Nursing College defines its mission as follows:

- To educate future professional nurses who would possess knowledge and competencies at the national and international standards relevant to social needs.

- To motivate students to be the self-oriented, moral, accountable, self-directed, and self-developed people who would always be ready to provide quality nursing service.

- To utilize knowledge in helping people for developing and/or maintaining the quality of life, improving the nursing profession and society.

e) Goal

After the completion of a nursing degree,

- One will be a competent professional nurse who can demonstrate the competency of using the knowledge-based practice for the provision of holistic client-centered Quality Nursing & Midwifery Service.

- One would provide care to meet needs and expectations and to promote, maintain and restore the health of individuals, families, and communities in the commons.

Tree Plantation in the Campus of International Nursing College

Celebration of International Nurses Day-2022 at International Nursing College

Features of International Nursing College

Location

International Nursing College is situated within the same campus of International Medical College & Hospital. It is located at Gushulia on the outskirts of the commercial township of Tongi and is about 22 km away from the zero-point of Dhaka. The major bus terminals, main railway station and Hazrat Shahjalal International Airport are within a maximum automobile distance of 30 minutes. Amenities and modern facilities of city life are near enough though isolated in the spell-binding scheme of nature, which is truly a unique feature of the natural beauty of the Unit.

The Campus

The maddening busy streets and concrete forests of the capital city keep at a distance from the college. The campus stands in a solitary environment amidst green vegetation, spaced villages, and large water bodies. One can take a walk around the campus to take a fresh breath while enjoying the panorama.

Within the campus, International Medical College Hospital (IMCH) is situated as the teaching hospital of INC. It is a 600-bedded multidisciplinary Hospital Complex that is located in proximity to the College building. The present campus of the College comprises over 23 bighas of land. The total floor space of International Medical College Hospital is 204055 Sft. The existing facilities on various floors are also adequate to meet all study-related requirements of nursing students.

Our Facilities

Library Facilities

The central library of the College has a good number of high-quality text and academic reference books. Students can study in the library from 8:00 am to 4:00 pm and can borrow books without charge.

Laboratory Facilities

There are required numbers of laboratory facilities for the subjects like Anatomy, Physiology, Microbiology, Nutrition & Dietetics, Computer & IT, Fundamentals of Nursing, Midwifery and also English with a sufficient number of specimen, equipment, and instruments. Students avail all lab facilities for fulfilling the prescribed lab practicing hours of their curriculum.

Celebration of Victory Day 16 December 2021 at International Medical College Hospital & International Nursing College Campus

Clinical Practice Facilities

Students are placed in real situations for clinical practice both in the hospital, and communities as per the requirement of the curriculum. To fulfill the required practical hours, students do their clinical practice in various wards of IMCH throughout the year for 2 weeks each month under the supervision of the subject teachers.

Hostel Facilities

Hostel facilities are provided by the college for the female students in its own premises. Male students have to live in a rented house adjacent to the college campus with the supervision of college authority and under the guidance of nursing college teachers.

Transport Facilities

Students, living in Dhaka city can avail themselves of the college buses for their transportation to and from the campus free of cost. Those who reside at Dhanmondi, Mohammadpur, Shyamoli, Gabtali, Mirpur, Tongi, Uttara, Khilkhet, Banani, Mohakhali, DOHS, Tejgaon, Shahbagh or areas adjacent to these get easy transport facility. Students from other areas of Dhaka can also use this facility at the nearest selected spots in the above-mentioned areas. The students who live in the college hostel usually avail of college buses to go to Tongi and Dhaka for shopping and other necessary purposes around the week.

Internship

The students successfully passing the final B.Sc in Nursing (BSN) examination will have to undergo at least six months of internship training at International Medical College Hospital (IMCH). During internship training, subsistence wages will be given to the interns.

ESL

A special program is conducted for the development of English language proficiency of the students. This program is English as a Second Language (ESL) Certificate Program. After successful completion of the ESL program, our students receive ESL certificates from an American university - the Kean University. So, our students have an opportunity to avail themselves of two (02) prestigious certificates, one from Kean University, NJ, USA, and another one from the University of Dhaka.

Students Development

Efforts are taken to enable the students to:

- Apply their acquired knowledge and skills of nursing in their practical field efficiently and independently.
- Communicate effectively with patients, clients, colleagues, and significant others.
- Utilize critical thinking ability with analytical judgment in professional decision-making.
- Co-operate and collaborate as team members with other health professionals.
- Promote health awareness and educate the community members about the concept of health, illness, and how to lead a healthy life.
- Be a professional nurse.

Final Year Student's of INC -2021

Physical Training of Student's (INC)

Faculty

The academic faculty of the college now consists of about 18 members including Professors, Associate Professors, Assistant Professors, Lecturers Clinical Instructors and other professionals who have expertise in proven excellent teaching and research activities. They provide high-quality interactive teaching-learning materials to the student.

Faculty Members:

1. **Prof. Mohd. Anisur Rahman Forazy**, RN, Phd, Principal
2. **Major (Retd.) Meherun Nessa**, B.Sc Nursing, MPH, Associate Professor
3. **Aurangajeb Molla**, M.Sc. in international Health (UK), B.Sc. Nursing, Diploma in Phychiatric Nursing
4. **Dr. Manzila Manzur**, MBBS, MPH, Assistant Professor, Community Health Nursing
5. **Md. Sohel Rana**, M.A. in ELT, University of Dhaka, M.A. B.A. (Hon's) in English, Assistant Professor of English.
6. **G.M. Furkhan Hamid**, M.Sc. in Computer science & Engineering, Lacturer of Computer & information Tecnology
7. **Josne Ara Jiasmin**, B.Sc. in nursing, Lecturer.
8. **Aysha Akter**, Nursing Instructor.
9. **Most. Jannatun Khatun** - Clinical Instructor
10. **Md. Afzal Hossain** - Clinical Instructor
11. **Most. Ratna Khatun** - Clinical Instructor

Guest Faculties:

1. **Prof. Dr. Humaira Nazneen**, Associate Professor-Guest Faculty-Epidemiology
2. **Dr. Nusrat Ferdous Chowdhury**. Associate Professor, Guest Faculty-Microbiology
3. **Dr. Hasina Akter**, MBBS, Associate Professor, Guest Faculty-Physiology
4. **Dr. Auni Kamal**, MBBS, MPhil, Associate Professor, Guest Faculty- Anatomy

Guest Faculties:

5. **Dr. Sharifatun Jannat**, MBBS, Associate Professor (C.C), Guest Faculty- Pathphysiology
6. **Dr. Farhana Haque**, Assistant Professor, Department of Phamacology
7. **Prof. Dr. Jahangir Alam**, MBBS, FCPS, Professor - Guest Faculty- Surgery
8. **Dr. Saida Sharmin, MBBS**, MPH, Assistant Professor - Guest Faculty- Community Health Nursing
9. **Prof. Dr. Moydul Hoque**, MBBS, DTCD, D CARD, Professor (C.C)- Guest Faculty- Medicine
10. **Dr. Nourjahan Laskar**, MBBS, M. Phil, Associate Professor - Guest Faculty- Microbiology
11. **Dr. Avijit Basak, MBBS**, Registrar (IMCH), Guest Faculty- Adult & Elderly Health Nursing
12. **Prof. Dr. Habib Sadat Chaudhury**, MBBS, MD, Professor - Guest Faculty- Mental Health & Psychiatric Nursing
13. **Dr. Md. Fayaz Khan**, MBBS, Registrar (IMCH) - Guest Faculty- Mental Health & Psychiatric Nursing

Rules and Regulations for the Students

Students must follow the academic and administrative discipline carefully. Studentship may be canceled from the college under the following circumstances:

- Being absent from the class for more than one month without informing the authority.
- Disciplinary ground.
- Creating disturbance to the academic atmosphere.
- Taking part in active student politics.
- Showing repeated dissatisfactory academic performance.
- Any kind of unruly activity.

Courses & Fees

Master of Science in Nursing

Master of Science in Nursing (MSN) aims to develop nurse leaders in the area of nursing practice, education, research, and management to promote the healthcare of all people in Bangladesh. More precisely, the objective of the program is to prepare clinical nurse leaders, nursing educators, community health nurses, nurse administrators, or nurse managers by developing advanced skills, knowledge, and attitude for their professional roles and broaden expertise to meet the complex health care needs of the future society.

The length of the MSN program is of two-years full-time. It offers three advanced nursing specialties:

① Community Health Nursing ② Adult and Elderly Health Nursing ③ Mental Health and Psychiatric Nursing

The applicants who meet the following criteria will be eligible to enter into the MSN course:

National Applicants:

- Applicants must have passed Bachelor of Nursing or Bachelor of Science in Midwifery from a school recognized by the BNMC.
- Applicants must have at least 2 years of clinical experience as a registered nurse.
- Applicants must not be above 45 years of age upon enrollment.
- Applicants must be registered by the BNMC as a registered nurse and registration must be updated.
- Applicants must submit a copy of the National ID.

International Applicants:

- Applicants must have a BSN or equivalent certificate.
- Applicants must have at least two years of clinical experience as a registered nurse after obtaining a BSN degree.
- Applicants must not be above 45 years of age upon enrollment.

Fees for M.Sc. Nursing-2 Years Course.

Particulars	Amount
Admission Fee	30,500/-
Tuition Fee: Tk. 4000/- (per month) x 24 months	96,000/-
Semester Fee : Tk. 120,000/- will have to pay 08 installments (each installment Tk. 30,000/- to be paid by the end of June and Decemer of each year.)	120,000/-
Total	246,500/-
Hostel Charge Tk. 2000/- per month (for Female students only)	48,000/-

B.Sc in Nursing (Basic)

- Name of the Course: B.Sc in Nursing.
- Academic Year: 4 academic years starting from January each year.
- Total Subjects: 29 (General-4, Foundation-7, and Professional-18).
- Total hours: 6672 in four years course.
- Medium of Instruction: English.
- The applicants must have passed both SSC and HSC examination in Science with Biology from any Board of Intermediate and Secondary Education in Bangladesh.
- Foreign applicants having completed 'A' level can also apply for admission submitting attested photocopies of equivalent certificates by the Ministry of Health & Family Welfare.
- Marks conversion from GCE- "O" Level and "A" level will be decided by the central admission committee.
- The candidates will apply within 3 years after passing HSC Examination.
- Students will be selected on a merit basis. Merit score will be determined from the cumulative GPA of SSC and HSC result, and from the admission test result.
- Medical (Physical & mental) fitness will be essential before admission.
- Marital status of students will be single.
- Student's registration shall be valid for 8 years.
- On the successful completion of the degree, the students are required registered nurse.

School Health Programs of INC Student's

Poster Presentation of International Nursing College Students

Clinical Placement

Students must be involved in clinical practice as per curriculum requirements. In the first year, students will not be placed for clinical learning on the night shift. From 2nd year to 3rd year and 4th year, students will be placed in night shift, and they must be under the supervision of the senior staff nurses or clinical instructors if available. The ratio of the day, evening, and night shifts will be 3:2:1 per week.
